## Company Introduction

We are pleased to introduce ourselves as a prominent company in the industry, specializing in the manufacturing of high-quality coating products. Established in 2009, we have gained a strong reputation for our dedication to excellence and our commitment to meeting the demanding standards of architectural and building industry professionals.

Our extensive range of products is specifically designed to cater to the unique requirements of the industry. We understand the importance of providing coatings that not only enhance the aesthetic appeal of architectural structures but also offer exceptional durability, weather resistance, and long-lasting performance. Our products are carefully formulated using the latest technologies and highest quality materials, ensuring that they meet and exceed the expectations of our customers.

We have always aimed to expand our reach and introduce our innovative products to customers worldwide winning Architect Product Excellence awards in 2017, 2018, 2019, 2020, 2021, 2022, 2023 and 2024 with a firm belief in the quality of our offerings, we are now planning to introduce our highly anticipated 3rd generation cement coatings to the global market in the near future. These coatings have been meticulously developed to provide superior protection and enhance the visual appeal of various surfaces, making them ideal for a wide range of applications.

We take great pride in the recognition that we have received from the industry professionals further affirming our commitment to delivering excellence. This recognition serves as a testament to our dedication to producing products that not only meet but surpass the expectations of architects and builders.

We are into social media marketing to reach national and international platforms to enhance the volume of sales. Keep a stop for plastering rendering and painting will be huge saving for our customers. We export to Maldives, India and United Kingdom. This will be a big contribution to the GDP in Sri Lanka.

We trust our R&D and continuous innovations will be our focus to grow the business. Introducing Cement Tiles to the market is our latest innovation while diversifying the business to organic fertilizer market.

We value our product quality and standards to produce the best ISO and SLS are with us. Some products tested according to British standards (BS8204). We have patent for our Titanium Wall Finish product followed by Green certificate for our Cement Coating products.

Our team would benefit from using environment friendly products while helping the society by providing economical products in the future.

It is our philosophy to handle business ethically while protecting its value at all times.

SINCE 2007
